The Scala collection is inspired by traditional Chinese design elements, from the gentle lines and flowing forms of traditional Chinese "Han Fu" dresses. The result is a graceful expression of traditional values, but delivered in a modern and elegant package.

The collection features a signature design chair with two overlapping arcs inspired by the sleeve design on traditional "Han Fu", united by vibrant rope weaving delivering luscious colours and rich textures. The accompanying tables adds a robust presence to the ensemble.

DESIGN

Claudio Bonicco, Andrea Lo Papa

Inspired by the iconic "histogram" skyline of New York City, the Manhattan collection embodies the energy and creativity of a modern metropolis.

Each piece is unique, assembled individually with its own distinct colour profile, configured to reflect the diversity of a vibrant city and its residents. The Manhattan collection is built on a 100% rust-resistant aluminium frame in matte powder coated finish.

The versatile construction also means it can scale from simple pieces for cosy corners to a full set for expansive outdoor landscapes. The collection is perfect for gardens, terraces and balconies, poolside areas, cafes and restaurants, anywhere you want to add a splash of fun and energy without compromising style and comfort.
